Worked Examples

Topic 1.2: Dynamic Behaviour

ENGM X304 – Applied Control Systems

Assoc. Prof. William Robertson   Dr Sean McGowan

October 3, 2025

Contents

1 Concept 1.2.1: Differential Equations

1.1 Example 1: Placeholder

This section will contain worked examples for the Differential Equations concept.

Problem: Example problem statement will be added here.

Solution: Example solution will be added here.

2 Concept 1.2.2: Qualitative Analysis

2.1 Example 1: Placeholder

This section will contain worked examples for the Qualitative Analysis concept.

Problem: Example problem statement will be added here.

Solution: Example solution will be added here.

3 Concept 1.2.3: Stability

3.1 Example 1: Placeholder

This section will contain worked examples for the Stability concept.

Problem: Example problem statement will be added here.

Solution: Example solution will be added here.

4 Concept 1.2.4: Examples

4.1 Example 1: Placeholder

This section will contain worked examples for the Examples concept.

Problem: Example problem statement will be added here.

Solution: Example solution will be added here.
